Name of Assessment Project: San Diego Sightseeing Bus Trip

Name(s) of Person(s) Responsible for Assessment Project: Out of State and International Student Outreach Coordinator (Shawn Fore)

Email Address: sfore@ucsd.edu
Phone Number: (858) 822-6978

Department: Sixth College

Out of State and International Student Outreach Coordinator (Shawn Fore)

Department Overview:
As the number of out-of-state and international students increases, UC San Diego has adopted new initiatives to meet the unique needs of these student populations and increase student satisfaction. The Outreach Coordinator Department works in the colleges to assist non-resident students with transition to UC San Diego and help these students get acclimated to campus life and California culture. The focus is on international and out-of-state students, but Coordinators also outreach to California students as well to create campus community and give students the opportunity to meet others from diverse cultures and backgrounds.

The Outreach Coordinators conduct need assessments and provide support through outreach, marketing and introducing campus resources to students. They also implement campus wide and college programming and events to connect non-resident students with each other, increase interactions between domestic non-resident students, and introduce non-resident students to the local San Diego and greater California regions. Housed in the colleges, Shawn Fore is responsible for Sixth, Revelle, and Warren Colleges and Malina Doherty is responsible for Marshall, Muir, and Roosevelt Colleges.

Program, Service, or Event Related to Assessment Project:
International and out-of-state students come to UC San Diego to obtain an esteemed degree, but it can be overwhelming to come to a new environment and culture. It can be difficult for students to get acclimated to the community without knowing where to travel or having a means of transportation. The Outreach Coordinators implemented a San Diego Sightseeing Bus Trip to allow non-resident students the opportunity to explore San Diego.

The San Diego Sightseeing Bus Trip transported students from UC San Diego around San Diego so they could explore various attractions within the community. The sightseeing tour went to the following locations: La Jolla Shores, Old Town, Coronado, and Balboa Park. The purpose of the trip was to create community, allow students to meet others, and expose students to some of San Diego’s best attractions for a discounted price.

Assessment Project Description:
The objective of this assessment was to compile a comprehensive satisfaction review and value of students attending the San Diego Sightseeing Bus Trip. Students were given the opportunity to anonymously express their satisfaction with the San Diego Sightseeing Bus Trip. The evaluation requested demographic information of student, satisfaction rating, and free response from students on what they liked/did not like from event. The Outreach Coordinators distributed hardcopies of the assessment instrument at the end of the sightseeing tour. Data from all paper assessment were uploaded manually to Excel. The results of this assessment were used to determine the value of bus excursions within the community and to make improvements to the program for the upcoming quarters.

The main purpose of the assessment project was to assess:

- Number of participants attending the event
- Benefit of participation in event (increase in knowledge and/or sense of belonging to UCSD)
- Overall satisfaction with the bus excursion event
- If program/event allowed students to connect with other students from their home state, country, or region

Unit/Program Specific Goals and Learning Outcomes:
As a result of participating in the San Diego Sightseeing Bus Trip, students will be able to:

- Report an increase in their sense of belonging to UC San Diego
- Discover San Diego by exploring areas outside of UC San Diego
- Identify an increase in knowledge of the San Diego area
- Connect with other students from their home state, country, or region or a California student

Relationship to Student Affairs Learning Outcomes:
Advance a Plan for Personal, Academic, and Professional Success, Engage in a Healthy Lifestyle

Assessment Project 2/8/2014
Total Students Served: 15

- # of International Students Served: 8
- # of Out-Of-State Students Served: 3
- # of California Students Served: 4

**Type of Assessment:** Satisfaction study

**Other Assessment Type(s):** Surveys

**Data Collection Tools:** Hard-copies of the survey were distributed at the end of the San Diego Sightseeing Bus Trip by the Outreach Coordinators. Students were given the opportunity to anonymously express their satisfaction with the San Diego Sightseeing Bus Trip event. The evaluation requested demographic information of student, satisfaction rating, and free response from students on what they liked/did not like from event.

**Data Analysis Methods:** Data from all paper assessment were compiled and uploaded manually to Excel by Outreach Coordinators.

**Presentation of Findings:** The results of this assessment were used by the Outreach Coordinators to analyze the benefit of offering bus excursions around San Diego for students and to improve bus trip programs for the following quarter based on student feedback. Assessment results were also shared with the Non-Resident Student Engagement (NRSE) committee.

**Progress:** 100%

**Summary of Findings:** The main purpose of the San Diego Sightseeing Bus Trip assessment project was to assess the following. The data provided the following results:

- Participant demographic information
  - 15 student participants
    - 53% of attendees were International students
    - 20% of attendees were Out-Of-State students
    - 27% of attendees were California resident students
  - Students attended from all 6 colleges
  - Students from every grade level represented

- Benefit of participation in event (increase in knowledge and/or sense of belonging to UCSD)
  - 100% of participants agree or strongly agree they gained an increase in knowledge of the San Diego area
  - 80% of participants reported an increase in their sense of belonging to UCSD

- If students would attend other similar workshop-related events in the future
  - 93% of participants were satisfied (or higher) with event
  - 87% of participants stated they would attend a similar bus excursion event

- If program/event allowed students to connect with other students from their home state, country, or region
  - 93% of participants were able to name at least 1 new person they met at the San Diego Sightseeing Bus Excursion trip
    - 100% of participants were able to connect with other international students
    - 80% of participants were able to connect with other out-of-state students
    - 47% of participants were able to connect with other California resident students

In addition to findings directly correlated with learning outcomes, the assessment also illustrated the following results:

- 27% of participants agreed visiting Old Town and the bus trip in general were the best part of the San Diego Sightseeing Bus Trip
- 53% of students heard about the San Diego Sightseeing Bus Trip via email
Student suggestions of other places in San Diego to explore:

- Balboa Park, Gaslamp District, Ocean Beach, Pacific Beach, San Diego Zoo, SeaWorld

Student Feedback/Comments:

- Awesome trip!
- Exciting Adventure
- Helpful, fun, & encouraging!
- More time to explore each spot

Impact of Assessment: The assessment results were viewed by the Outreach Coordinators for analysis. Assessment results were also shared with the Non-Resident Student Engagement (NRSE) committee. The findings were used to:

- Improve the bus excursion programs for the following quarter based on student feedback
- Increase awareness and advertising of bus excursions among international and out-of-state students to increase participation and knowledge of requirements

Lessons Learned: The assessment results identified key findings of student satisfaction, benefit of participation in event, and student interest in attending similar events in the future. The assessment had a high response rate and provided valuable insight into student's perception of the bus excursions and where students would like to explore. Students appreciated the component of the event dedicated to talking about San Diego (i.e: things to do, ways to get involved, places to eat, etc.), helping them to feel engaged within the community outside of UC San Diego. Students purchased tickets through the Student Affairs offices at 2 of the colleges. For future bus excursions, the Outreach Coordinators will setup an e-commerce site to allow purchase of tickets which will increase participation in the event. Overall, this event provided non-resident students the opportunity to explore San Diego while engaging with other non-resident and California students. The Outreach Coordinators will continue to offer bus excursions since students reported high satisfaction levels. Surveys will be implemented for future bus excursion events and compared with these existing findings.
