Program, Service, or Event Related to Assessment Project

Annually, student-athletes going into their junior year are required to attend a seminar during the Spring quarter of their sophomore year that includes presentations on academic enrichment, available internships, eligibility, and career planning. The Rising Juniors Seminar is a co-curricular opportunity which supports the health, retention, and future professional success of students by providing them with an opportunity to explore their interests, expand their knowledge and launch the next phase of their lives.

Assessment Project Description

The main purpose of this project is to encourage student-athletes to be aware of the changes to NCAA eligibility for upperclassmen and to begin thinking about academically-related opportunities.
that become more relevant and available in their latter collegiate years. Student-athletes will be addressed by the UCSD Career Service Center, Academic Enrichment Program, and Academic Internship Program in addition to Intercollegiate Athletics Staff and alumni. The survey provided to participants intends to assess the degree of impact the workshop had on the student-athletes' awareness of internship and career opportunities as well as their awareness regarding eligibility regulations and academic standards.

**Assessment Project**

- **Start:** 4/23/2013
- **End:** 6/30/2013

**Population/Sample**

The Rising Juniors workshop is mandatory for current sophomore student-athletes who are finishing their second year at UCSD and is highly recommended for transfer student-athletes in their first year at UCSD. For this survey, there was a total of 48 respondents.

**Type of Assessment:** Student learning outcomes and/or behavioral outcomes, Satisfaction study

**Other Assessment Type(s):**

**Assessment Methods:** Surveys

**Other Assessment Method(s):**

**Data Collection Tools**

- Campus Lab Survey
- Rising Juniors Survey PDF

**Data Analysis Methods**

Review survey results summary and determine how to improve the material presented and the manner in which it is presented in order to effectively communicate all important information to the student-athletes.

**Presentation of Findings**

Discuss results with Athletics Department staff in a staff meeting.
Summary of Findings

Findings indicate the seminar is successful in most aspects of informing student-athletes about the NCAA academic eligibility changes that will impact their junior year; 97% of participants stating that they understood the changes in degree progress rules after having attended the seminar, 69% strongly agreeing. Findings indicate that the seminar was also successful in informing student-athletes about where they can find internships; 79% of attendees agreeing that they will participate in one of the programs presented.

Impact of Assessment

The assessment will allow us to adjust our program for next year in order to ensure that the student-athletes are gaining access to the most pertinent information we can make available, and that it is presented in the most accessible manner.

Lessons Learned

We learned from this assessment to provide a hard copy of all the information discussed as well as to make it constantly available to the student-athlete for quick reference.
